

Japanese Culture Class for Foreigners

March 27, 2022 (Sunday)

10am to 12pm

Karate is an ancient Okinawan martial art fused with Chinese martial arts, using techniques such as punches, kicks, and blocks. Pursued in Okinawa, it has now spread around the world as a self-defense technique, a sport and a means of spiritual training. Since officially included as an additional sport in the Tokyo 2020 Olympic Games, karate has been receiving more attention than ever before.

Why don't you put on a karate robe that you don't usually have a chance to wear, learn the basic movements of karate and experience self-defense while having fun?
